

SUPPORTED INTERNSHIPS

What is a supported internship?

A supported internship is a work based programme for people aged 16-24 years old with learning difficulties/disabilities or autism.

Benefits of taking on interns

Creating Internship opportunities for school leavers and students is not only great for young people, but it could benefit your organisation as well!

4 key benefits:

1. Raise your profile

Being known as a business that offers internship opportunities will raise the profile and appeal of your business and sector.

2. Grow your own talent

Get access to the up and coming talent of the future.

3. Achieve new perspective

Young people often bring fresh ideas and approaches which may open up new and emerging markets for the business.

4. Develop existing employees

Taking on young people will give your existing staff the opportunity to develop supervisory, mentoring and management skills. This will make staff feel more valued and passionate about their role.
